READY TO TACKLE ANYTHING

To understand business, you have to do business. That's why no other MBA program rivals our hands-on opportunities to start, advise, invest, and lead in businesses. We call this Ross Experiences in Action-Based Learning — REAL. You gain the skills and experiences that prepare you to rise to any occasion, now and throughout your career.

REAL.START

Ready to launch your own company? Ross is an entrepreneurial paradise, with unparalleled support for your new business idea. Gain access to feedback and funding through programs within the Zell Lurie Institute for Entrepreneurial Studies.

REAL.ADVISE

Ever wanted to tell the likes of Microsoft, PepsiCo, or Uber how to handle a pressing business issue? That's exactly what you'll do in our signature MAP course, as you spend seven weeks focused on a real business challenge.

REAL.INVEST

Looking for hands-on investing experience? Determine your appetite for risk — and reward — by getting involved with one of seven student-led investment funds overseeing millions of dollars. Areas of focus include social impact and real estate.

REAL.LEAD

Demonstrate your response to real-world situations as a team member in our Living Business Leadership Experience (MO 611) course. You and your team of peers will present your recommendations to senior executives who led through these exact organizational challenges.

**YOU KNOW YOU HAVE
WHAT IT TAKES**

As part of the Zell Lurie Institute, I worked with a team of peers to compete in the Michigan Investment Challenge. This hands-on experience working with real venture capital and founders helped my team to place second in the regional competition against other business schools, and prepared each of us to work in venture-related roles for our internships."

READY TO DELIVER RESULTS

Ross pioneered action-based learning more than 30 years ago with our Multidisciplinary Action Projects (MAP) course. In small teams, an entire MBA class tackles critical, hands-on projects full time for seven weeks at companies around the world. It's a great way to prepare for your internship; stretch yourself; and explore a different industry, location, or career function.

Maybe you'll help a company launch a new product line, advise an acquisition strategy, or tackle an operations challenge. MAP is your chance to gain the kind of experience you need to stand out and hit the ground running.

"MAP was one of the main reasons I chose to do my MBA at Michigan Ross. During my seven-week project, I consulted for Voestalpine Railway Systems, a global market leader for railway infrastructure. MAP broadened my knowledge of both manufacturing and technology process improvements and helped me better understand the future of mobility and some of the most important developments that will bridge the gap between hype and reality."
